Analyze and address impacts of COVID-19 in Egypt

Project Title	Analyze and address impacts of COVID-19 in Egypt
Project Slimmary	Map out the Egyptian socio-economic landscape shift in the wake of COVID-19 and be part of the response effort.
Country	Egypt

Project Description

This project supports USAID/Egypt's COVID-19 Action Team and presents an opportunity to map out what the Egyptian socio-economic landscape will look like in the medium term, and help plan proposed responses. If - as we all hope - this whole COVID thing goes away - the Office of Economic Growth has plenty of other exciting projects that will keep you engaged. These will test your research, analysis and writing skills in sectors including agribusiness, cultural tourism, infrastructure, and trade.

Required Skills or Interests

Skill(s)
Analytical writing
Data analysis
Editing and proofreading
Research

Additional Information

You will be part of USAID/Egypt's 163-person team, mainly supporting the 15-member Future Thinking Working Group of our COVID-19 Action Team. You will also support the 18-member Office of Economic Growth, and interest in economic analysis is strongly preferred.

Language Requirements
